

ODOREX™

Eliminates Odors...For Good!™

**Eliminate the stain
and the odor with
ODOREX.**

Odor Eliminator

Many stains and garments can emit undesirable odors that become more pronounced when steam is applied through the stain removal and finishing process. ODOREX eliminates these undesirable odors, providing your customers with odor-free garments and improving the working environment in your plant.

ODOREX permanently entraps odors and helps to rinse them away so that no odors are emitted during the stain removal or pressing process.

Use ODOREX first on all odorous stains and suspect garment areas to eliminate odor surprises later.

- **Permanently Entraps Odors**

ODOREX instantly goes to work to permanently bind with odors so they can be cleaned away never to be smelled again. Unlike masking agents or temporary encapsulators, ODOREX provides true odor elimination...permanently

- **Improves Customer Satisfaction**

Consumers expect their garments to be returned odor-free; use of ODOREX ensures odors will no longer emit from stained or soiled areas.

- **Makes Pressing More Pleasant**

Using steam to finish garments can cause the emission of unpleasant odors. By treating common areas such as underarms with ODOREX before cleaning, you will not have to smell unpleasant odors while you are pressing.

- **Makes Stain Removal More Pleasant**

Eliminates the odors associated with wet-side stains before removal, ensuring an odor-free stain removal process.

- **Insurance Against Invisible Odor Unpleasantness**

Sometimes unpleasant odors are present in stains that are not visible, such as underarm perspiration. Applying ODOREX first eliminates odor surprises later.

- **Versatile**

ODOREX can be used in drycleaning or wetcleaning applications.

- **Compatible**

ODOREX is neutral so you can use ODOREX in conjunction with either protein (alkali) or tannin (acid) stain removers without fear of neutralization.

- **Safe to Use on Any Garment**

ODOREX will not damage fabrics or dyes if those fabrics are not negatively affected by water.

- **Can be Used in a Spray Application**

To eliminate odors from larger stains prior to dry-cleaning, simply mix one part ODOREX with one part water.

- **Convenient**

ODOREX is conveniently packaged in 16 oz. bottles for board use. Thirty-two oz. spray bottles to mix ODOREX 1-to-1 with water are available.

Instructions for using ODOREX®

ODOREX is safe to most fabrics and colors. If colorfastness is questionable, test garment in a hidden area.

Eliminating odors in wet-side stains on the spotting board

To use ODOREX effectively, follow these five simple steps:

1. Apply ODOREX directly to the stained area in a sufficient amount to cover the affected area.
2. If necessary, apply mechanical action using a tamping motion with a brush or a light rubbing action with a bone spatula.
3. Flush the area with steam or water.
4. If the stain still remains, apply ODOREX and the appropriate wet-side spotting agents.
5. When soil or stain is loosened or removed from fabric, flush with steam or water.

When eliminating odors and treating larger stains or treating fabric areas that commonly contain odors (such as underarm and crotch areas), ODOREX can be sprayed to effectively treat these larger stained areas.

To apply as a spray, simply mix 1 part ODOREX and 1 part water using the 32 oz. ODOREX spray bottle, then:

1. Shake container before use.
2. Lightly spray area needing treatment. Do not saturate.
3. Allow area to dry before drycleaning. Dryclean or wetclean as necessary.

How to Order ODOREX

ODOREX is available from authorized Street's distributors everywhere. Order from your distributor in single 16 oz. ready to use pints or six pints to a case.

Before using any chemical product, review the Safety Data Sheet (SDS) for safe handling and proper disposal.

For professional drycleaning, wetcleaning and laundry use only.
