

Collar POWER™

Scrubbs Out Collar & Cuff Grime™

Collar POWER
provides concentrated
cleaning power to
remove heavy soils
from collars & cuffs.

Concentrated Laundry Pre-Treatment

Collar POWER™ is a concentrated laundry pre-treatment that is very effective in removing oily dirt commonly found on the collars and cuffs of laundered shirts, usually without brushing. Collar POWER works equally well on other laundered items, such as khakis and golf shirts.

Cleaners know that many customers choose their drycleaner based on the quality of the laundered shirt they produce. The ability to deliver a clean shirt can have a big impact on drycleaning volume. A shirt collar with residual grime will be the first thing a customer sees when they pick up their garments. Retain valuable customers by putting Collar POWER to work for you.

- **Concentrated for Extra Cleaning Power**

Collar POWER is concentrated with up to three times the active ingredients of other products, so you get more cleaning power for your money.

- **Saves Time**

The concentrated cleaning ability of Collar POWER does the scrubbing for you on moderately soiled shirts.

- **Rinses Easily**

Collar POWER rinses out completely in hot, warm or cold water, so there is no residual product to leave rings after washing.

- **Reduces Recleans and Post-Spotting**

Removing oily stains after a garment has been laundered is more difficult and takes much more time. The powerful oil removers in Collar POWER go to work on contact to help ensure stains are removed and not hard-set by heat. Avoid costly recleans by applying Collar POWER to all heavily soiled collars, cuffs and other laundered items.

- **Versatile Application**

Collar POWER can be applied with a unique foaming sprayer, a spotting bottle or with a brush.

All ingredients are biodegradable. Contains no Proposition 65 listed ingredients or halogenated compounds. Designed to comply with California 2013 VOC regulations.

Instructions for Using Collar POWER™

Use Collar POWER to enhance stain removal and cleaning performance on collars, cuffs and other laundered items. It aids in the removal of stains like:

**Oily Foods
Cosmetics
Inks
Embedded Soil
Grime**

Collar POWER is safe to most fabrics and colors. If colorfastness is questionable, test garment in a hidden area.

Pre-Treatment for Laundry

Apply with a spotting or spray bottle or brush on from a spotting bowl to pre-treat soils prior to washing.

1. Apply Collar POWER directly to soiled areas and completely saturate. Do not dilute.
2. Allow Collar POWER to penetrate soiled areas. Collar POWER is designed to remain on the fabric prior to washing. Do not flush, rinse or dry treated areas.
3. For heavy soil, gently work Collar POWER into soiled areas with spatula or light tamping with a wet-side brush.
4. When soil is loosened from fabric, continue with the laundry process.

Note: Collar POWER is not to be used as a drycleaning pre-treatment.

How to Order Collar POWER

Collar POWER is sold by authorized Street's distributors everywhere. Order Collar POWER from your local distributor in single one-gallon (3.785 L), containers or in cases of four.

Specially labeled spotting and spray bottles are available from your distributor.

Before using any chemical product, review the Safety Data Sheet (SDS) for safe handling and proper disposal.

For professional laundry use only.
