

Perchloroethylene Stain Removal Chart

Before using any chemical product, read the product's Use Instructions and Safety Data Sheets (SDS). Users are responsible for complying with national, state, and local regulations regarding the use, handling, and disposal of these products. Wear/use personal protective gear as described in product SDS. Please Note: If unsure of colorfastness, test garments in an unexposed area before beginning stain removal. Avoid scrubbing or other harsh mechanical action.

How to Level

When rinsing spotting agents in drycleaning with steam or water, it is important to control moisture or "level" to help prevent spotting rings and fabric damage. To level:

1. After fabric has been rinsed and air-dried, apply leveling agent liberally to the treated areas.
2. Lightly tamp the wet area, including fabric area just outside of the ring.
3. Do not flush, rinse, or dry.
4. Continue with drycleaning process.
