

ALK-20™

Alkaline Booster

ALK-20 is an alkalinity booster that provides added stain removal capability for the *5-Part Laundry System*.

The *5-Part Laundry System* is designed to provide customizable laundry solutions for both commercial and retail laundry operations.

ALK 20:

- Provides added stain removal power
- Boosts removal of acidic soils
- Boosts emulsification of oily and greasy soils
- Helps reduce redeposition

ALK-20 is used with other products part of the *5-Part Laundry System*

- Flex™- detergent
- ALK-20™- alkaline builder
- Adco Liquid Sour™ - alkalinity neutralizer
- SoftenAll® -conditioner or AE-47™ -starch
- Adco Oxygen Bleach or Adco Chlorine Bleach

ALK-20 Use Instructions

For professional laundry use only. Before using any chemical product, review the Safety Data Sheet (SDS) for safe handling and proper disposal. Follow garment care label and garment fiber content and construction to select appropriate washing and drying settings and finishing methods. Safe on all washable, colorfast fabrics including polyester and other synthetic blends. Safe on all metals and rubbers found in laundry equipment. If colorfastness is questionable, test garment in a hidden area.

Laundry Use

ALK-20 is part of a customizable multi-product process. Every laundry operation has unique needs, operating conditions, production and cost goals, water conditions and types of items being cleaned. As a result, different laundry additive mixes, programming and dosages will be required for different operations

General Use:

- ALK-20 should be applied through automatic dispensing equipment.
- ALK-20 can be used in a prewash, break, or suds steps in process formulas depending on the degree of soil and classifications of the goods.
- Usage Rates: *The following are guidelines only. Please consult your Street/Adco representative for the optimal products, dosages, and programs for your specific cleaning and business needs.*
 - Light Soil: Use 3 – 4 oz. (90 mL –120 mL) per 50 lbs. (23kg)
 - Medium Soil: Use 4 – 5 oz. . (120 mL –150 mL) per 50 lbs. (23kg)
 - Heavy Soil: Use 5 – 6 oz. (150 mL –180 mL) per 50 lbs. (23kg)
