

FINE REPLENISH™

LAUNDRY & WETCLEANING FABRIC RESTORER

Water-Based Fabric Restorer For Wetcleaning

Some fabrics processed in water can become less flexible or pliable and somewhat harsh with a chalky appearance after improper wetcleaning or laundering techniques. **FINE REPLENISH** is a uniquely formulated product that helps restore wetcleaned items to their original look and feel.

- Designed for use as a fabric restorer for wetcleaned wools, silks, rayons, and other fine fabrics
- Adds luster, deepens color, and minimizes chalky appearance of dark fabrics after wetcleaning
- Continued use in the final rinse aids in maintaining a "Like New" appearance, soft hand, and natural drape to garments
- Helps to minimize shrinkage by improving the resistance of fabrics to rubbing and abrasion during the drying process
- Helps prevent static and cling

FINE REPLENISH is part of the **Fine Clean Product Line™** for professional wetcleaning which includes **Fine Clean™** detergent, **Fine Texture™** sizing and conditioner, **Fine Replenish** fabric restorer, and **Fine Plus™** combination detergent.

FINE REPLENISH Use Instructions

For professional wetcleaning and laundry use only. Before using any chemical product, review the Safety Data Sheet (SDS) for safe handling and proper disposal.

Laundry or Wetcleaning Use

Follow garment care label and garment fiber content and construction to select appropriate washing and drying settings and finishing methods.

- Use 2 – 4 oz. (60 mL – 120 mL) of **FINE REPLENISH** per garment depending on fabric, construction and desired feel
- Add in the final rinse; use gentle agitation for 4 – 6 minutes, extract and dry
- For best results use in conjunction with **FINE CLEAN™** detergent

How to Order FINE REPLENISH

Order from your authorized Adco –Laidlaw local distributor in 1-gallon containers, boxes of four 1-gallon containers, 5-gallon pails, and 15-gallon drums.
