

FLEX™

Liquid Laundry Detergent

Powerful enough to remove the toughest of soils, but protective of laundered items, **FLEX** provides effective and safe detergency for the **5-Part Laundry System**; a liquid Laundry System designed to provide customizable laundry solutions for both commercial and retail laundry operations. **FLEX** is:

- Effective on a wide variety of soils and stains
- Powerful enough to remove the toughest soils
- Formulated with advanced surfactant technology for superior soil suspension
- Formulated with a neutral pH to provide added safety to delicate fabrics and colors
- Designed to provide whiter whites and maintain brighter colors
- Formulated without dyes, fragrances or optical brighteners.

FLEX is used with other products part of the **5-Part Laundry System**

- **Flex™** - detergent
- **ALK-20™** - alkaline builder
- **Adco Liquid Sour™** - alkalinity neutralizer
- **SoftenAll®** - conditioner or **AE-47™** - starch
- **Adco Oxygen Bleach** or **Adco Chlorine Bleach**

FLEX Use Instructions

For professional laundry use only. Before using any chemical product, review the Safety Data Sheet (SDS) for safe handling and proper disposal. Follow garment care label and garment fiber content and construction to select appropriate washing and drying settings and finishing methods. Safe on all washable, colorfast fabrics including polyester and other synthetic blends. If colorfastness is questionable, test garment in a hidden area.

Laundry Use

FLEX is part of a customizable multi-product process. Every laundry operation has unique needs, operating conditions, production and cost goals, water conditions and types of items being cleaned. As a result, different laundry additive mixes, programming and dosages will be required for different operations.

General Use:

- FLEX should be applied through automatic dispensing equipment.
- Usage Rates: *The following are guidelines only. Please consult your Street/Adco representative for the optimal products, dosages, and programs for your specific cleaning and business needs.*
 - Heavy Soils, add 4 –6 oz. (120 –180 mL) per 50 lbs. (23kg).
 - Medium Soils, add 3 –5 oz. (90 –150 mL) per 50 lbs. (23kg).
 - Light Soils, add 2 –3 oz. (60 – 90mL) per 50 lbs. (23kg).

How to Order Flex

Order from your authorized Adco –Laidlaw local distributor in 1-gallon containers, boxes of four 1-gallon containers, 5-gallon pails and 15-gallon drums.
