

# HORIZON™

## Powder Color-Safe Oxygen Bleach

Adco's **HORIZON** is a non-chlorine powder oxygen bleach. **HORIZON** is designed to work on stains, grime and dullness in conjunction with detergent.

### HORIZON:

- Is effective for all colorfast fabrics that require a non-chlorine, oxidizing bleach for stain removal and brightness retention
- Also can be used for white garments, to remove stains and brighten fabrics
- Is versatile: **HORIZON** can be added to the wash wheel in laundry applications, used as soak for "slow bleach" stain removal, and applied on the spotting board

LAUNDRY BLEACH

# HORIZON Use Instructions

*For professional laundry use only. Before using any chemical product, review the Safety Data Sheet (SDS) for safe handling and proper disposal.*

*Follow garment care label and garment fiber content and construction to select appropriate washing and drying settings and finishing methods. Safe on all washable, colorfast fabrics including polyester and other synthetic blends. **DO NOT use on natural silk or wool.** If colorfastness is questionable, test garment in a hidden area. **Note: HORIZON Typically requires temperatures above 100°F (38 °C) for activation.***

## Top-Loading (Home Style) Washers

1. When using in Top Loaders mix with water prior to adding clothes.
2. Add 2 oz. (60 mL) to water as filling and mix thoroughly.
3. Add garments and wash.
4. Dry and finish according to care label instructions.

## Front Load (High-Efficiency) Small Capacity Washers

1. Allow fabrics to wet out if added to front load equipment.
2. Add 1 – 2 oz. (30 – 60 mL) based on degree of soiling. Do not add powder directly on clothes.
3. Dry and finish according to care label instructions.

## Professional Laundry (Commercial Style) Machine

1. Allow fabrics to wet out if added to front load commercial equipment.
2. Add **HORIZON** at the beginning of cycle or in a separate step following the wash step.
  - For regular loads: add 2–3 oz. per 50 lbs. of goods (60-90 mL per 23 kg)
  - For heavily soiled loads: Add 4–6 oz. per 50 lbs. of goods. (120 - 180 mL per 23 kg)
3. Temperatures based on the classification should be 100° F to 160°F (38°C to 71°C). For best bleaching action run 140-160 F, (60°to 71° C) with a pH between 9 and 10.5
4. Wash time should be 10 to 15 minutes.
5. Dry and finish according to care label instructions

## Soaking

1. Use in plastic container. Add up to 1 oz. per gallon (30 mL per 3.8 L) of warm water and mix thoroughly.
2. Add garments and wet out completely.
3. Cover with a lid or tight plastic film.
4. Occasionally check results and agitate fabric.
5. Process as normal

## Spotting

1. Wet out garment with steam or water and apply **HORIZON**.
2. Lightly steam in **HORIZON**; heavier stains may require a second application.
3. Flush thoroughly and process normally.

## How to Order HORIZON

Order from your authorized Adco –Laidlaw local distributor in 10-pound or 40 pound pails
