

Products for Professional Wetcleaning

CLEAN SMARTER WITH WATER™

PROPER CHEMISTRY IS AN ESSENTIAL COMPONENT OF A SUPERIOR WETCLEANING PROCESS.

Wetcleaning is an important aspect of every cleaning operation and the right chemicals are vital for achieving the results your customers demand. Street's **H₂PRO** complete line of wetcleaning chemicals have been designed with the latest advancements in wetcleaning chemistry to deliver what you need:

- Effective removal of dirt and stains
- Prevention of fiber damage, shrinkage, loss of color and fabric distortion
- A vibrant appearance, fresher smelling, and an overall like-new look and feel that your customers will notice and appreciate

Whether you are a 100% wetcleaning operation cleaning wool suits, silk blouses, and other items that are usually drycleaned or a drycleaner using water to clean khakis, polos and other items that are best wetcleaned, Street's **H₂PRO** wetcleaning system provides an effective, value-for-money and marketable cleaning process. *Clean Smarter With Water™* with **H₂PRO**.

YOUR CUSTOMERS WILL APPRECIATE THE VIBRANT APPEARANCE, FRESH SMELL AND OVERALL LIKE-NEW LOOK AND FEEL OF THEIR CLOTHING.

The H₂PRO product line contains no Proposition 65 listed ingredients or halogenated compounds.

Products designed to work to

DETERGENTS

H₂PRO® Detergent

H₂PRO Detergent is a concentrated cleaning agent that is strong enough for everyday use, yet gentle enough for use with delicate and water-sensitive items, including wool, silk and rayon garments, and other fine washables processed in professional wetcleaning.

CONCENTRATED FORMULA

A concentrated professional formulation for use in hand washing, top-load and front-load washing machines, as well as professional wetcleaning systems.

GENTLE ON DELICATE, WATER-SENSITIVE ITEMS & FINE WASHABLES

Effective chemistry specifically formulated for delicate fabrics that need special care like wools, silks and rayon and other fine washables. It offers the best possible care against fiber damage and shape loss.

LOOSENS & SUSPENDS SOILS TO PREVENT REDEPOSITION

Designed to safely and effectively loosen and suspend soil for removal during the rinse cycle to prevent redeposition and greying.

REDUCES FELTING & SHRINKAGE

A specially-designed buffering system that helps reduce felting and shrinkage to keep clothes looking like new and protect against cleaning-related damage.

PERFORMS EFFECTIVELY AT LOW TEMPERATURES

Doesn't require higher temperature to remove soil effectively as it is specially designed to produce great results even in cold water.

PREVENTS DYE BLEEDING; KEEPS WHITES WHITE & COLORS BRIGHT

H₂PRO has a controlled pH to help prevent dye bleeding and a special buffering system to protect colors from fading. Optical brighteners to keep whites white and colors bright.

H₂PRO® High Performance

H₂PRO High Performance Detergent is a concentrated enzymatic cleaning agent designed for everyday use to clean moderate to heavily soiled items in water. The highly active formulation is especially effective at removing greasy, oily soils, protein stains and starch-based food stains in varying water conditions and temperatures, as well as suspending those difficult soils until they can be rinsed away.

CONCENTRATED FORMULA

A concentrated professional formulation for use in hand washing, top-load and front-load washing machines, and professional wetcleaning systems.

REMOVES GREASY, OILY STAINS

Specifically formulated to break up and remove greasy, oily soils from fabrics cleaned in water, often without the need for pre-treatment.

ENZYMATIC STAIN REMOVAL

Contains a dual enzyme system that is highly effective on protein stains, such as blood, grass and perspiration, as well as starch-based food stains like chocolate, gravy and sauces.

KEEPS WHITES WHITE & COLORS BRIGHT

Has excellent soil suspension properties to prevent redeposition; and a special buffering system that helps to protect colors from fading while optical brighteners keep whites and colors bright.

EFFECTIVE PERFORMANCE IN VARYING WATER CONDITIONS

Whether the water conditions are hard or soft, temperatures warm or cold, it utilizes an organic builder system to produce consistent cleaning results.

H₂PRO® All-In-One Detergent

H₂PRO All-In-One Detergent combines detergent, conditioner, brighteners and sizing in a single product. Its advanced formula provides a cost-effective, high-quality wetcleaning solution for operations where programming, space or machine configuration limit the number of products that may be used. H₂PRO All-In-One Detergent is specially designed for wetcleaning mixed loads like khakis, golf shirts and casual wear, along with fine washables like wools, rayons and silks. H₂PRO All-In-One Detergent can be used in professional wetcleaning machines, in consumer machines, or for cleaning delicate items by hand.

COMBINES DETERGENT, CONDITIONER, BRIGHTENERS & SIZING

As an "all-in-one" product, H₂PRO All-In-One Detergent provides a cost-effective wetcleaning solution for operations requiring a combination product.

PROVIDES EFFECTIVE WETCLEANING OF MIXED LOADS

Effective cleaning chemistry offers excellent care for a broad range of different types of fabrics, helping protect against fiber damage and shape loss.

OFFERS POWERFUL YET GENTLE CLEANING

Effectively penetrates, releases and suspends greases, stains and soils, letting the machine do the cleaning instead of the spotting board.

LOOSENS & SUSPENDS SOILS TO PREVENT REDEPOSITION

Safely and effectively loosens and suspends soil for removal during the rinse cycle. It has excellent soil suspension properties to help prevent redeposition and greying.

PREVENTS DYE BLEEDING & KEEPS WHITES & COLORS BRIGHT

Inhibitors help to prevent dye bleeding while effective brighteners provide whiter whites and brighter colors to help clothes look their best.

REDUCES & HELPS PREVENT ABRASION, FELTING, SHRINKAGE, STATIC & CLING

Built-in conditioners keep clothes lasting longer by helping to prevent fiber friction and similar cleaning-related damage, including felting and shrinkage, while anti-static agents reduce garment cling and linting, making finishing faster and easier.

IMPARTS A SOFT, SUPPLE FEEL TO FABRICS PROCESSED IN WATER

Conditioners give clothes a soft, full feeling and help them hold their shape, making finishing easier and giving clothes that "like new" look and feel that customers require.

gether for optimal cleaning and finish

H₂PRO® Wool & Silk Detergent

H₂PRO Wool & Silk Detergent is specifically designed for wetcleaning water-sensitive items like wools, silks, rayons, and other fine washables in professional wetcleaning machines. It is strong enough for effective stain and soil removal, yet gentle enough for use with water sensitive items processed in professional wetcleaning.

SPECIFICALLY FORMULATED FOR WETCLEANING WATER SENSITIVE FABRICS

H₂PRO Wool & Silk Detergent offers the best possible care for fabrics like wools, silks, rayons and other fine washables, helping protect against fiber damage and shape loss.

POWERFUL BUT GENTLE CLEANING

Effectively penetrates, releases and suspends greases, stains and soils, letting the machine do the cleaning instead of the spotting board.

PREVENTS DYE BLEEDING & KEEPS WHITES & COLORS BRIGHT

H₂PRO Wool & Silk Detergent has controlled pH to help prevent dye bleeding and a special buffering system helps to protect colors from fading; keeping whites white and colors bright.

REDUCES & HELPS PREVENT FELTING & SHRINKAGE

A specially-designed buffering system helps reduce felting and shrinkage to keep your clothes looking like new and protects against cleaning-related damage.

PERFORMS EFFECTIVELY AT LOW TEMPERATURES

Some detergents require higher temperatures to remove soil effectively.

H₂PRO Wool & Silk Detergent is specially designed to produce great results even in lower temperature water.

FINISHES

H₂PRO® Fabric Conditioner

Some fabrics processed in water can become less flexible or pliable and somewhat harsh to the touch.

H₂PRO Fabric Conditioner imparts a soft and supple feel to fabrics and brings them closer to their original look and feel.

H₂PRO Fabric Conditioner is a surface-active agent that affixes itself to the outside of the fibers. It acts as an anti-static agent and improves the resistance of fabrics to rubbing and abrasion during the drying process, which helps to minimize shrinkage.

KEEPS FABRICS IN LIKE-NEW CONDITION

Imparts a soft and supple feel to fabrics processed in water.

REDUCES STATIC & LINT

Anti-static agent reduces garment cling and linting.

PROTECTS AGAINST SHRINKAGE

Offers the best possible care while protecting against fiber damage and loss of shape.

REDUCES WRINKLING

Delivers a uniform, wrinkle-free appearance with just the right feel, body & drape.

SAFE & EFFECTIVE FOR ALL FABRICS

Garments will stay true and bright, without discoloration; it is safe for all fabrics – synthetics, naturals, or blends.

SHORTENS FINISHING TIME

Pressing is faster making it easier to restore garments to their original look and feel.

GELATONE® Fabric Finish

Fabric finish is necessary for certain fabrics to restore their original crispness and freshness. GELATONE Fabric Finish is a water-soluble fabric finish for professional application to drycleaned, wetcleaned and laundered fabrics. It is particularly effective in restoring the original look-and-feel to hard-to-finish fabrics such as wool, cotton, linen, ramie, silk and rayon. GELATONE provides superb finishing results on wetcleaned suits and other tailored items that will set you apart from the competition.

ADDS NOTICEABLE BODY

Restores the crisp, fresh look to fabrics and makes them feel and look like new.

VERSATILE & EASY APPLICATION

Mixes easily with water and remains stable in solution. Professional spray tank systems can provide an easy, uniform application. It may also be applied using the immersion method, in top-load washers, front-load washers, or professional laundry or wetcleaning machines.

HELPS GARMENTS RESIST WRINKLING

Helps protect garments from wrinkling after they leave your plant. In addition, treated garments will resist wrinkling due to handling, crowding on racks, transporting, or hanging in your customer's closet.

SAFE & EFFECTIVE FOR ALL FABRICS

Due to its transparency, it will not discolor garments; they will stay true and bright. It is safe for all fabrics – synthetics, naturals or blends.

HELPS LOWER FINISHING COSTS

Pressing is faster, making it less time consuming to restore garments to their original look.

shing results in water.

SPECIALTY

H₂PRO® Degreaser

H₂PRO Degreaser is a uniquely formulated product that is ideal for wetcleaning loads where there is a higher than average level of greases, oils and particulate matter on items. It is effective across a wide range of temperatures and water conditions, which makes H₂PRO Degreaser a perfect choice for use in diverse water-based cleaning applications from professional wetcleaning to both consumer and commercial laundry machines.

HELPS REMOVE A WIDE RANGE OF GREASY OILY STAINS

H₂PRO Degreaser is effective on the following: tar, asphalt, grease, paint, oils, cosmetics, oily foods, and other greasy and oily stains.

VERSATILE: EFFECTIVE IN WIDE TEMPERATURE RANGE

Works as a degreaser and emulsifier even at lower temperatures (90° - 140° F/ 32° -60°C).

BOOSTS DETERGENT GREASE REMOVAL

When used in conjunction with H₂PRO detergents, H₂PRO Degreaser further increases the already effective degreasing capabilities of these detergents on loads with excessive grease.

IDEAL FOR HEAVY, GREASY SOILS & PARTICULATE SOILS

Ideal for wetcleaning loads such as industrial or food service workwear, where there are heavier greasy soils and particulate soils than in most average wetcleaning loads.

H₂PRO® Color Replenish*

Some fabrics processed in water can become less flexible or pliable and somewhat harsh feeling. Or, they can get a chalky appearance after improper wetcleaning or laundering techniques and repeated cleanings. H₂PRO Color Replenish is a uniquely formulated product that helps restore wetcleaned items to their original look and feel.

FORMULATED FOR THE DEMANDS OF PROFESSIONAL WETCLEANING

Designed for use in professional wetcleaning as a fabric restorer for wools, silks, rayons, and other fine fabrics, and helps restore these sensitive fabrics to their expected look and feel.

RESTORES LUSTER AND DEEPENS COLORS

Restores the luster and deepens the color of wetcleaned items, helping to keep items vivid after multiple cleanings.

MINIMIZES CHALKY APPEARANCE OF DARK FABRICS

Helps dark items to stay dark, preventing the chalky appearance that often occurs in dark and black fabrics.

GIVES “LIKE NEW” APPEARANCE

Regular use in the final rinse aids in maintaining a “like new” appearance to garments.

MAINTAINS GARMENT PLIABILITY, SOFTNESS & FEEL

Regular use in the final rinse provides a soft hand and feel to garments.

HELPS PREVENT ABRASION, FELTING & SHRINKAGE

Helps to minimize shrinkage by improving the resistance of fabrics to rubbing and abrasion during the drying process.

HELPS REDUCE STATIC, CLING & LINT

Minimizes lint removal, saving you time, frustration and labor.

**H₂PRO Color Replenish is designed to be used in conjunction with the H₂PRO Line of Professional Wetcleaning Products.*

FROM DETERGENTS TO FINISHES, WE SUPPLY A COMPLETE WETCLEANING SOLUTION TO MEET YOUR FABRIC CARE NEEDS AND CLEANING STANDARDS.

Street's offers a complete line of stain removal and odor treatment products designed to be used in wetcleaning and laundry without requiring flushing. Look to Street's for all your drycleaning, wetcleaning and laundry needs.

PYRATEX[®] LV

Heavy-duty stain remover for paints, oils, greases and cosmetics

STREETEX[®]

pH neutral pre-spotter for water-soluble stains

STREEPRO[®]

Protein stain remover for easy, safe removal of milk, blood, perspiration and other protein stains

READY-STRIP[™]

Titanium stripper for fast and effective removal of fugitive dye and residual dye stain

WETDRY[™]

Leave-on, no-flush treatment for combination and mystery stains

MULSOLITE[®]

Neutral lubricant that eases removal of wet-side stains

STREETAN[®]

Tannin stain remover provides quick and easy elimination of coffee, grass, ink and wine stains
