

FINE CLEAN™

Powerful yet Gentle Professional Wetcleaning Detergent

FINE CLEAN is specially designed for wetcleaning wools, silks, rayons, and other fine washables in one-step, machine-based wetcleaning. The advanced formula of **FINE CLEAN** combines the following for cost-effective, high-quality wetcleaning:

- Formulated for professional wetcleaning of drycleanable items
- Is excellent for delicates and “hand wash” type items, providing superb soil release for delicate fibers
- Contains powerful but gentle additives for removing greases
- Uses agents for effective penetrating, releasing and suspending of stains and soils
- Contains agents to prevent static and cling
- Has controlled pH to help prevent dye bleeding
- Features conditioners to help prevent felting and shrinkage during drying
- An excellent choice for delicate garments, **FINE CLEAN** may be used with a single bath or rinse
- Is the perfect choice for “water conservation” types of process cleaning

FINE CLEAN is part of the **Fine Clean Product Line™** for professional wetcleaning which includes **Fine Clean** detergent, **Fine Texture™** sizing and conditioner, **Fine Replenish™** fabric restorer, and **Fine Plus™** combination detergent.

FINE CLEAN Use Instructions

For professional wetcleaning and laundry use only. Before using any chemical product, review the Safety Data Sheet (SDS) for safe handling and proper disposal.

Laundry or Wetcleaning Use

Follow garment care label and garment fiber content and construction to select appropriate washing and drying settings and finishing methods.

- Use 1 – 2 oz. (30 mL – 60 mL) of **FINE CLEAN** per 10 lbs (4.5 kg) of fabric.
- Use cold or warm (85° – 95° F / 29° – 35°C) water.
- Set wash cycle at 4 to 6 min. with no more than 50% washer capacity and use minimum agitation.
- For best results use **FINE TEXTURE™** in the final rinse.
- Rinse in cool water (70° – 85 °F / 21° – 29°C) if desired. Consistency of water temps is important to prevent fabric shock and distortion. If water temperature can be programmed, results will be more consistent if the rinsing is kept between at 70° – 85 ° F (21° – 29°C) degrees year round.
- Drain and extract.
- Dry according to care label instructions - but not above 120°F (49°C)

How to Order FINE CLEAN

Order from your authorized Adco –Laidlaw local distributor in 1-gallon containers, boxes of four 1-gallon containers, 5-gallon pails, and 15-gallon drums.
