

**H2PRO® Color Replenish's advanced formula allows superb restoration of color and feel to wetcleaned items.**

## Fabric and Color Restorer for Professional Wetcleaning

Some fabrics processed in water can become less flexible or pliable and somewhat harsh feeling or get a chalky appearance after improper wetcleaning or laundering techniques and repeated cleanings. **H2PRO Color Replenish** is a uniquely formulated product that helps restore wetcleaned items to their original look and feel.

- **Formulated for the Demands of Professional Wetcleaning**

Designed for use in professional wetcleaning as a fabric restorer for wools, silks, rayons, and other fine fabrics, **H2PRO Color Replenish** helps restore these sensitive fabrics to their expected look and feel.

- **Restores Luster and Deepens Colors**

Repeated cleaning can fade colors. **H2PRO Color Replenish** restores the luster and deepens the color of wetcleaned items, helping to keep items vivid after multiple cleanings.

- **Minimizes Chalky Appearance of Dark Fabrics**

After cleaning in water, some dark and black fabrics can get a chalky appearance; **H2PRO Color Replenish** helps dark items to *stay* dark.

- **Gives "Like New" Appearance**

Regular use in the final rinse aids in maintaining a "like new" appearance to garments.

- **Maintains Garment Pliability, Softness, & Feel**

Regular use in the final rinse provides a soft hand and feel to garments.

- **Helps Prevent Abrasion, Felting & Shrinkage**

**H2PRO Color Replenish** helps to minimize shrinkage by improving the resistance of fabrics to rubbing and abrasion during the drying process.

- **Helps Reduce Static, Cling, & Lint**

**H2PRO Color Replenish** minimizes garment static, so there is less cling and lint AND less need for manual lint removal, saving you time, frustration, and labor.

*H2PRO Color Replenish is designed to be used in conjunction with the H2PRO Line of Professional Wetcleaning Products.*

**Clean Smarter With Water™. Use H2PRO**

Contains no Proposition 65 listed ingredients or halogenated compounds.

## Instructions for Using H2PRO® Color Replenish

*Follow garment care label and garment fiber content and construction to select appropriate washing and drying settings and finishing methods. Before cleaning garments, remove any solvent-soluble or hard-set stains using the appropriate Street's stain removers.*

- Use 2 – 4 oz. (60 mL – 120 mL) of **H2PRO Color Replenish** per garment depending on fabric, construction, and desired feel
- Add in the final rinse; use gentle agitation for 4 – 6 minutes, extract and dry
- For best results use in conjunction with **H2PRO High Performance (HP) Detergent** or **H2PRO Wool & Silk Detergent**

### *How to Order H2PRO Color Replenish*

**H2PRO Color Replenish** is sold by authorized Street's distributors. **H2PRO Color Replenish** is available in single one-gallon containers (3.785 L), cases of four, 5-gallon pails (18.93 L) or 15-gallon drums (56.78 L).

*Before using any chemical product, review the Safety Data Sheet (SDS) for safe handling and proper disposal.  
For professional wetcleaning & laundry use only.*
