

POWERBRITE®

WETCLEANING DETERGENT

POWERBRITE is a highly versatile, lower pH detergent specifically formulated for professional wetcleaning of garments but also effective for “wash and fold” and other laundry applications. The pH of the detergent is closer to natural fibers and human skin providing excellent but gentle cleaning performance. **POWERBRITE** is:

- Powerful enough to remove the toughest soils, but safe for delicate fabrics
- pH adjusted to help prevent color loss
- Formulated with optical brighteners that help restore and maintain a like new appearance to processed garments
- Versatile: it can be used in professional wetcleaning machines, top load washers or HE front load machines
- An excellent choice for “wash and fold” operations
- Formulated to meet the demands and expectations in operations concerned about water conservation.

WETCLEANING

POWERBRITE Use Instructions

For professional wetcleaning and laundry use only. Before using any chemical product, review the Safety Data Sheet (SDS) for safe handling and proper disposal. Follow garment care label and garment fiber content and construction to select appropriate washing and drying settings and finishing methods.

Laundry Use:

For best results, use **POWERBRITE** with a softener/retexturizing agent and/or sizing, such as **Laidlaw SoftenAll™** or **Laidlaw AquaSize™**.

Professional Wetcleaning (Commercial Style) Machine*

Add **POWERBRITE** to the wheel at the start of the first fill when starting the washer.

Durable cottons and blends

Add 3 to 4 oz per 30 lb (or 65 to 90 mL per 10 kg) of load. Dry and finish according to care label instructions.

For tailored garments and soft wools:

Add 3 to 4 oz per 20 lb (or 100 to 130 mL per 10 kg) of load. Dry and finish according to care label instructions.

For Silks and other delicate (shrink prone) garments:

Add 2 to 3 oz per 20 lb (or 65 to 100 mL per 10 kg) of load. Static drain if possible, and extract at High Speed for no more than one minute. Dry and finish according to care label instructions.

Top-Loading (Home Style) Washers

1. Add **POWERBRITE** to the water based on load size and water level settings. Mix thoroughly, then add clothes.
 - For Full Load: add 4 oz. (120 mL) of **POWERBRITE**.
 - For Medium Load: add 3 oz. (90 mL) of **POWERBRITE**.
 - For Low Load: add 2 oz. (60 mL) of **POWERBRITE**.
2. Dry and finish according to care label instructions.

Front Load (High-Efficiency) Small Capacity Washers

1. Add **POWERBRITE** to the detergent dispenser and start cycle.
 - For Full Load: add 3 oz. (90 mL) of **POWERBRITE** to dispenser.
 - For Medium Load: add 2 oz. (60 mL) of **POWERBRITE** to dispenser.
 - For Low Load: add 1 ½ oz. (45 mL) of **POWERBRITE** to dispenser.
2. Dry and finish according to care label instructions.

“Wash and Fold” Operations in Commercial Style Machines

Add **POWERBRITE** to the wheel at the start of the first fill when starting the washer at a rate of 4 to 6 oz per 50 lbs (or 50-80 mL per kg) of load. Extract normally as per classification. Dry or finish depending on classification.

**Automatic dispensing and programming is recommended for professional wetcleaning use.*

How to Order POWERBRITE

Order from your authorized Adco – Laidlaw local distributor in 1-gallon containers, boxes of four 1-gallon containers, 5-gallon pails, and 15-gallon drums.
