SoftenALL Use Instructions

For professional wetcleaning and laundry use only. Before using any chemical product, review the Safety Data Sheet (SDS) for safe handling and proper disposal. Follow garment care label and garment fiber content and construction to select appropriate washing and drying settings and finishing methods.

LAUNDRY & WETCLEANING SOFTENER

Washing By Hand/Immersion Method
Completely rinse detergent from garment(s) in a clean sink or plastic pail. Add **SoftenAll** at a rate of ½ oz per gallon (or 5 mL per L) of water. Mix thoroughly. Immerse garment and soak for 1 to 2 minutes, occasionally agitate by hand. Carefully, but thoroughly, squeeze water from garment. Do not wring or twist. Dry and finish according to care label instructions.

Top-Loading (Home Style) Washers
1. Add **SoftenAll** to the Final Rinse based on load size and water level settings.
    *   For High Level: add 4 oz. (120 mL) of SoftenAll.
    *   For Medium Level: add 3 oz. (90 mL) of SoftenAll.
    *   For Low Level: add 2 oz. (60 mL) of SoftenAll.
2. Dry and finish according to care label instructions.

Front Load (High-Efficiency) Small Capacity Washers
1. Add **SoftenAll** to the dispenser at the beginning of the cycle.
    *   For Full Loads: add 3 oz. (90 mL) of SoftenAll.
    *   For Medium Loads: add 2 oz. (60 mL) of SoftenAll.
    *   For Small Loads: add 1 to 1 ½ oz. (30- 45 mL) of SoftenAll.
2. Dry and finish according to care label instructions.

Professional Laundry (Commercial Style) Machine
Add **SoftenAll** at a rate of 2 to 4 oz per 50 lbs (or 25-50 mL per 10 kg) of load at beginning of Final Rinse. Extract normally as per classification. Dry or finish depending on classification.

Professional Wetcleaning (Commercial Style) Machine*
Add to the wheel when Final Rinse begins to fill.
For tailored garments and wool blends:
Add 3 to 4 oz per 10 lb (or 200-260 mL per 10 kg) of load. Agitate on Low Level / Gentle Action for 3 to 4 minutes. Extract at High Speed for 1 minute. Dry and finish according to care label instructions.
For cashmeres, rag wool, and other delicate (shrink prone) garments:
Add up to 1oz per lb (or 65 mL per kg) of garments processed to the wheel when the Final Rinse begins to fill. Agitate on Low Level / Delicate Action for 3 to 4 minutes. Static drain if possible and extract at High Speed for no more than one minute. Dry and finish according to care label instructions.

*Automatic dispensing and programming is recommended for professional wetcleaning use.

How to Order SoftenALL
Order from your authorized Adco – Laidlaw local distributor in 1-gallon containers, boxes of four 1-gallon containers, 5-gallon pails, and 15-gallon drums.
