RESTORING CONFIDENCE IN CLEAN®

WELCOME TO STREET'S

The Ultimate Line of Fabric Care & Commercial Cleaning Products

Since 1876, R. R. Street & Co. Inc. (Street's) has been a leader in the textile care industry in the development, manufacturing, and marketing of cleaning process additives, stain removal agents, and filtration products.

Street's widely recognized brands consist of a comprehensive range of commercial cleaning products, supported by a company that is well known for a long-time commitment to excellence in the processes that we design and recommend, in the high-performance products that we research, manufacture and market, and in the services and support that we provide.

STAIN REMOVAL

Stain and soil removal is the primary reason consumers bring their garments to a cleaner, so you need products that effectively remove as many stains as possible without removing dye or damaging fabric. Street's offers the products, processes, and advanced formulas to get the job done right and help you to deliver an exceptional performance that will make your business stand out.

Wet-Side Stain Removers

AQUASOLV® *Solves Oily Stain Problems in Water™*

Water-rinsible paint, oil and grease remover. Removes oil-based paint, heavy grease, ink, crayon, tar, shoe polish, lipstick, and mascara before wetcleaning or laundry.

MULSOLITE® *Puts Water to Work™*

Neutral lubricant. Used to speed water-soluble stain removal. It quickly penetrates and removes mud, beverage stains, and other water-soluble stains.

SOFSPOT® *Gets the Soil. Preserves the Garment™*

Moisture leveling agent and stain remover for water-soluble stains on sensitive fabrics. Safely removes water-soluble stains from silk, linen, rayon, wool and cotton.

STREEPRO® *Safest for Protein Stains™*

Protein stain remover. Safely and effectively removes blood, perspiration, dairy, egg, baby formula and other protein stains.

STREETAN® *Safest for Tannin Stains™*

Tannin stain remover. Safely and effectively removes coffee, juice, wine, grass, beer, soft drinks, and other tannin stains.

STREETEX® *Get it Clean the First Time™*

Pre-spotter/spray spotter for water-soluble stains. Removes stains on necklines, hemlines, underarms, pockets, cuffs and areas of general soiling.

DEVOUR® *For the Untouchable Stains™*

Liquid enzymatic digester. Removes tough protein and starch stains like perspiration, blood, dairy, egg, and baby formula.

GENERAL FORMULA 209® *The Peak of Cleaning Performance™*

Tough tannin stain remover. Liquid formula for extra tough tannin stains like caramelized sugar, grass, liquor, and fruit stains.

Contains no Proposition 65 listed ingredients or halogenated compounds. Designed to comply with California 2013 VOC regulations.

Dry-Side Stain Removers

PICRIN® *The Volatile Dry Spotter™*

Volatile Dry-Side (VDS) stain remover. Removes tough stains like cosmetics, shoe polish, tar, ink, grease, and paint. Ideal for touch-up spotting and flushing dry-side spotting agents because it leaves no ring.

PYRATEx® *For the Tough Stains™*

Oily-type dry-side stain remover. Removes oil-based paint, heavy grease, ink, crayon, tar, shoe polish, lipstick, mascara, and other tough stains. Tackles exceptionally heavy stains.

PYRATEx® LV *For the Tough Stains™*

Water-rinseable, leave-on, oily-type dry-side stain remover for stains like oil-based paint, heavy grease, ink, crayon, tar, shoe polish, lipstick, and mascara.

TOUCH-UP™ POWDERED AEROSOL STAIN LIFTER

Remove Stains & Rings Without Recleaning™

Special aerosol formula for fast removal of greases, oils, and other dry-side stains. Helps avoid recleaning items that have picked up stains after processing and provides easy stain removal for items that can't be easily cleaned.

Combination Dry & Wet-Side Stain Removers

INKTASTIC™ *Knocks Out Ink On The Spot!*

Superior ink and dye stain remover. All-in-one stain remover for ink, autoclave tape, adhesives, and stubborn combination stains, including heavy greases, oils, make-up, sauces, and condiments.

WETDRY™ *The All-In-One Essential™*

Combination dry-side and wet-side stain remover. Water-rinsible, low odor product for use on stains like food, light oils, and mystery stains.

Controlled Dye Stripping & Bleaching

STREEPENE® *For Controlled Bleaching Action™*

Reducing bleach designed to remove fugitive dyes and the last traces of hard-to-remove stains. Can be used on colored garments. Safe on all non-metallic fabrics.

READY-STRIP™ *Makes Dye Disappear™*

Titanium stripper. Quickly and effectively removes fugitive and residual dye stains.

Stain Pre-Treatments/Leveling Agents

Street's offers a line of spray on/leave on/no-flush pre-treatments for most systems. They are formulated to boost cleaning performance and also work as leveling agents. Each is optimized for specific cleaning processes to treat and remove stains like perspiration, embedded soil, and unknown stains.

COLLAR POWER™ *Scrubs Out Collar & Cuff Grime™*

Concentrated laundry pre-treatment. Effective in removing embedded soil, grime and oily dirt commonly found on the collars and cuffs of laundered shirts, usually without brushing. Great for laundered items, such as khakis and golf shirts.

GREENSPOT® *Puts the Clean into Green™*

No-flush pre-treatment, leveling agent and cleaning booster for GreenEarth® systems. An effective pre-treatment designed to both remove stains and enhance stain removal and machine cleaning performance in GreenEarth® systems.

All pre-treatments contain no Proposition 65 listed ingredients or halogenated compounds and are designed to comply with California 2013 VOC regulations.

MULTISPOT® *Safely Removes More Stains™*

No-flush pre-treatment, leveling agent and cleaning booster for perchloroethylene systems. Effectively pretreats perspiration, embedded soil, and unknown stains.

SPOTLESS HC® *Clean it Once & Be Done™*

No-flush pre-treatment, leveling agent and cleaning booster for hydrocarbon systems. Effectively pretreats perspiration, embedded soil, and unknown stains.

DRYCLEANING DETERGENTS

Drycleaning solvent used alone will not effectively remove all the soils found on garments. Detergent is required to remove and suspend insoluble soils and aid in the removal of water-soluble soils. Detergents are also useful in controlling free moisture, reducing static and lint, and preventing soil redeposition. Street's has a detergent formulated to perform optimally in whatever cleaning systems that you use.

All Street's detergents are designed to:

- Provide predictable, uniform cleaning performance
- Keep whites white and colors bright
- Effectively remove and suspend insoluble soil to prevent redeposition
- Reduce the time and labor needed for manual stain removal on the spotting board
- Control moisture to prevent damage to fibers and dyes, inhibit shrinkage and wrinkling, and aid in the removal of water-soluble soil
- Impart lubrication to prevent sticking zippers
- Minimize static cling and lint problems
- Control solvent and garment odors

Hydrocarbon & Alternative Solvent Systems

PINNACLE® *The Peak of Cleaning Performance™*

Load (injection) process detergent for use in hydrocarbon, hybrid (HC Boost™), and modified alcohol (Lift™) solvent systems. Also available with the fresh clean scent of FRESHENZ™.

EVEREST® *Refreshingly Clean™*

Charge process detergent for high flash point hydrocarbon systems. Also available with the fresh clean scent of FRESHENZ™.

CONDUSOL® *The Key to Cleaning Quality™*

Concentrated charge process detergent for traditional petroleum systems.

Multi-Solvent Systems: Hydrocarbon & Perchloroethylene

MERASOL® *The Miracle Detergent™*

Load (injection) process and charge process detergent for BOTH perchloroethylene and hydrocarbon solvents. Versatile & value-driven.

FABRICOL® *FABRICOL Does it All™*

Load (injection) process detergent for use in perchloroethylene systems. Also available with the fresh clean scent of FRESHENZ™.

STATICOL® *The Multi-Fabric Detergent™*

Charge process detergent for use in perchloroethylene systems. Also available with the fresh clean scent of FRESHENZ™.

GreenEarth® D5 Systems

ADVANCED KLEEN™ *Advances Your Cleaning Performance™*

Load (injection) detergent and conditioner for use with GreenEarth® (D5) systems.

GreenSOL® *Clean More. Spot Less™*

Detergent and cleaning booster for GreenEarth® (D5) systems.

FABRIC FINISHES

Street's fabric finishes enable you to return your customers' garments to the "like new" pressed and finished condition they expect and can't get from care at home. Set your operation apart from the competition by delivering a difference that consumers will notice and appreciate. No matter what your pressing and finishing needs are, you'll find exactly what you are looking for in Street's products.

REVIVE®

Brings Garments Back to Life™

Liquid fabric finish for drycleaning systems. Restores garments to "like new" condition and helps garments resist wrinkling during handling and racking. Shortens finishing time and makes spotting faster and easier. Use in perc, hydrocarbon, HC Boost™ & Lift™ systems. Effective on all fabrics.

CUSTOM-CARE FINISH®

Gives "New Life" to Fabrics™

Beaded fabric finish for use in perchloroethylene & hydrocarbon solvent systems. Restores garments to "like new" condition and helps garments resist wrinkling during handling and racking. Shortens finishing time and makes spotting faster and easier. Effective on all fabrics.

FINISHING TOUCH™

Looking Good Made Easy™

Professional aerosol sizing for drycleanable, wetcleanable, and washable garments. Quickly helps garments look their best. Concentrated active ingredients deliver a uniform, crisp, wrinkle-free appearance. Helps garments resist wrinkling.

GELATONE®

"Extra Life" for Demanding Fabrics™

Water-soluble fabric finish that provides superb finishing results on tailored items. Restores the crisp and fresh look and feel of hard-to-finish fabrics such as wool, cotton, linen, ramie, silk and rayon. Helps lower pressing and finishing time and costs. Can be used in professional wetcleaning and laundry machines, in consumer machines, or for drycleaning with spray tank systems.

ODOR TREATMENT

Every cleaner fights odors. For effective odor control, you'll find exactly what you are looking for with Street's. Customers appreciate cleaned garments that will not only look and be clean, but will smell clean as well.

FRESHTEX™

For the Freshest Smelling Clothes & Textiles™

Easy-to-use and versatile for perc, petroleum, high flash hydrocarbon, and laundry systems. Leaves a fresh scent and is effective on smoke and bacterial odors. Effectively used in fire restoration and to eliminate stale, musty machine odors.

ODOREX™

Eliminates Odors ... for Good™

Odor eliminator for the spotting board. For use in drycleaning or wetcleaning. It permanently entraps odors and eliminates them. Provides insurance against invisible odor unpleasantness and makes pressing and stain removal more pleasant.

RESCUETEX™

Removes Tough Odors. Fast™

Odor eliminator. Permanently removes smoke, mildew, and other tough odors. It is effective for both restoration work and everyday use. It can be used in the machine, applied by spraying, and other applications. It reduces recleans and ozone time without added scent and may be used as a preventative odor treatment.

STEAM & BOILER SYSTEMS

Protect your investment and ensure your steam system's efficiency.

STEAM DRAGON™

Defending the Life of Your Boiler™

Boiler & steam system water conditioner. Helps maximize steam efficiency by treating and managing the condition of your water in the boiler water system. Reduces scale build-up, fights corrosion, prevents oxygen pitting, and protects water return tanks and pipes.

WETCLEANING

Clean Smarter With Water™

Proper chemistry is an essential component of a superior wetcleaning process. Whether you are a 100% wetcleaning operation cleaning wool suits, silk blouses, and other items that are usually drycleaned, or a drycleaner using water to clean khakis, polos, and other items that are best wetcleaned- Street's H₂PRO® wetcleaning system provides an effective, marketable, and value-for-money cleaning process. H₂PRO products can be used in professional wetcleaning and laundry machines, in consumer machines, or for cleaning delicate items by hand.

Wetcleaning Detergents

H₂PRO® DETERGENT

A concentrated cleaning agent that is strong enough for everyday use, yet gentle enough for use with delicate and water-sensitive items, including wool, silk and rayon garments, and other fine washables processed in professional wetcleaning.

H₂PRO® HIGH PERFORMANCE DETERGENT

A concentrated enzymatic cleaning agent designed for everyday use to clean moderate to heavily soiled items in water. Highly active formulation is especially effective at removing greasy, oily soil, protein stains, and starch-based food stains in varying water conditions and temperatures.

H₂PRO® WOOL & SILK DETERGENT

A detergent for water-sensitive fabrics in professional wetcleaning machines. Provides effective stain removal, even at low temperatures, and lowers inter-fiber friction to prevent fiber damage, shape loss, felting, and shrinkage.

H₂PRO® ALL-IN-ONE DETERGENT

Combines detergent, conditioner, brighteners, and sizing in a single product. Ideal for operations with space or machine limitations. Designed for wetcleaning mixed loads like casual wear, along with wools, rayons, and silks. Imparts a soft, supple feel.

Wetcleaning Finishes

H₂PRO® FABRIC CONDITIONER

Some fabrics processed can become less flexible and somewhat harsh to the touch when processed in water. H₂PRO Fabric Conditioner imparts a soft and supple feel to fabrics, helping return them to their original look and feel. Reduces felting, shrinkage, abrasion, static, lint, and wrinkling. Shortens finishing time.

Wetcleaning Specialty Products

H₂PRO® COLOR REPLENISH

Uniquely formulated for professional wetcleaning to help restore the luster and deepen the color of wetcleaned items. Prevents and minimizes the chalky appearance of dark fabrics and helps dark items stay dark. Maintains a "like new" appearance with regular use.

For best results use in conjunction with H₂PRO High Performance (HP) Detergent or H₂PRO Wool & Silk Detergent.

H₂PRO® DEGREASER

Further increases the already effective degreasing capabilities of H₂PRO detergents. Ideal for wetcleaning loads with heavy, greasy, and particulate soil sometimes found on industrial or food service workwear. Works as a degreaser and emulsifier even at lower temperatures (90° - 140° F/ 32° - 60°C).

FILTRATION

PURITAN® The Confidence Cartridge®

Filtration for Consistently Cleaner Solvent & Cleaner Clothes. PURITAN® cartridges help achieve consistently clean solvent to keep soils from redepositing onto your customers' garments. They trap and remove more insoluble soil and control more dye than any other cartridge. Fully sealed to prevent soil bypass.

- Special pleat design provides more filtering surface
- Premium filter paper with ultra-fine pores for superior filtering
- Vibratic-packed carbon core filled to capacity
- Outer shell provides strength and allows unrestricted solvent flow

Whatever your requirements, there is a Puritan model especially designed to meet your needs:

PURITAN CARBON-CORE CARTRIDGE

A perfect balance of carbon and filter paper for standard filter housings.

PURITAN ALL-CARBON CARTRIDGE

For supplemental carbon adsorption capacity in standard filter housings.

PURITAN LF CARBON-CORE CARTRIDGE

Standard large format model cartridge providing balanced filter life and dye control for most systems.

PURITAN DYE EATER CARTRIDGE

Standard large format model cartridge with additional carbon for maximum control of dye contaminants.

PURITAN ALL-CLAY CARTRIDGE

Standard large format model cartridge with clay only for oily contaminant and moisture control in systems where carbon is not desired.

PURITAN ADSORPTIVE CARTRIDGE

Standard large format model cartridge with a mixture of carbon and adsorptive clay for oily contaminant control in systems without distillation.

SOLVENTS

Elevate Your Cleaning™

Modified Alcohol Cleaning Fluid.

- Powerful removal of greasy, oily soils
- Goes to work fast on water-soluble soils
- Reduces the need for pre-spotting
- Ideal for cleaning of industrial work wear
- Quality similar to perc
- Efficient cycle times
- Reduces potential for machine odors
- Inherently biodegradable
- Replacement solvent for Sensene™

Take Your Cleaning Performance to The Next Level™

Class IIIA Synthetic High Flash Hydrocarbon-Glycol Blend with Built-In Cleaning Boosters.

- Provides superior stain removal performance
- Excellent water-soluble stain removal
- Quality similar to perc
- Gentle to fabrics, accessories, & trims
- Leaves no unpleasant odor in garments
- Price competitive with reliable availability
- Readily biodegradable
- Replacement solvent for Gen-X™ & Intense®

The Proven Alternative™

Synthetic high flash hydrocarbon. Decades of proven cleaning performance and consistent, premium quality.

- Virtually odorless
- Gentle on dyes. Safer on trims
- Cost effective
- Widely supported equipment and additive technologies
- Superb cleaning performance when heated

The Drycleaner's Perchloroethylene™

Perchloroethylene solvent.

- Decades of proven cleaning performance
- Fast and effective at dissolving grease and oil
- Shorter cycle times
- Increased machine productivity
- Decreased hand labor and increased profitability.
- Non-flammable

For decades, the Adco and Laidlaw brands have been a recognized full-line of cleaning products for the drycleaning industry. Since December 2014, R.R. Street & Co Inc. continued to manufacture the Adco and Laidlaw products for their loyal customers. These include drycleaning, wetcleaning and laundry products, spotting agents and boiler treatments. For a complete list of Adco/Laidlaw products, please visit 4STREETS.COM/ADCO/LAIDLAW.

In 2017, Street's introduced a complete line of commercial laundry and housekeeping products called Flex Commercial Cleaning Solutions. Flex provides innovative products with optimum cleaning power, supported by fully trained technical service personnel. You can count on consistency, peak results, and reduced operational costs to help meet the unique challenges of your operation. For more information about Flex, please visit CLEANWITHFLEX.COM.
