

ALTERNATIVE SOLVENTS

FOR COMMERCIAL & INDUSTRIAL DRYCLEANING

hc **BOOST**TM

AMPLIFIED HIGH FLASH SOLVENT

**GIVES YOUR
BUSINESS A
BOOSTTM!**

- Achieves Results as Effective as Perc
- Cost Effective Class IIIA Solvent
- Easy & Dependable
- Sets You Apart from the Competition

Super-Charges Your Cleaning With *Dual Action* Stain Removal That:

- Removes solvent-soluble soils, like greases, oils, waxes, & cosmetics.
- Boosts removal of water-soluble soils like foods and perspiration.

Saves You Time, Work, & Money

- Price competitive with other “alternative” solvents
- Reduces pre and post-spotting.
- Reduces costly re-cleans.
- Speeds up finishing time by reducing lint, & wrinkles.

Gentle To Fabrics, Buttons, & Trims

- Gentle on the majority of garments, buttons & trims including delicate items.
- Helps control moisture to minimize fiber damage & shrinkage.

Designed for Modern Class IIIA Dry-To-Dry Machines:

- An ideal replacement if you are switching away from perc to a modified Class IIIA machine
- Switching from other alternative solvents, like IntenseTM and SOLVONK4TM, is easy.
- Can be used in machines with or without distillation. No need to add additional stabilizers or top up boosters.
- Uses the same Street's/ADCO stain removers and detergents as High Flash Hydrocarbon cleaners.

Environmentally Conscious, Marketable, and Landlord Friendly

- Complies with NFPA (National Fire Prevention Association) Class IIIA requirements.
- Is readily biodegradable.
- Is not classified as dangerous to aquatic organisms.
- Not subject to reporting requirements of the United States SARA Section 313/CERCLA reporting.
- Does not contain any substances known to the state of California to cause cancer and/or reproductive toxicity (under Proposition 65, the nation's strictest standard).
- Requires no federal regulatory fees or franchise fees.

Has Minimal to No Solvent Odor

- Formulated to be virtually odorless.

Note, HC BOOST must be used in Class IIIA machines, not in perc machines.

***Tough on Stains.
Gentle on Garments.
Revolutionary for Cleaning.***

Modified Alcohol Solvent For All Modern Class IIIA Dry-to-Dry Machines

How LIFT Can Help Your Business

Commercial Drycleaners:

A drycleaning fluid that performs like perc but is eco-conscious, marketable, & landlord friendly.

Industrial & B2B Cleaners:

Heavy duty cleaning power that extends the useful life for work-wear & absorbents, & helps meet the environmental goals of your customers.

PROVEN INDUSTRIAL-STRENGTH DEGREASING

Successfully trusted in the most demanding industrial settings. LIFT effectively removes stubborn dirt, grease, oil, and grime from heavily soiled items made from a variety of natural and synthetic fibers, technical textiles, and leather including:

**Coveralls
Aprons
Gloves
Rags
Mats & Other Absorbents**

Removes a Wide Range Of Polar and Non-Polar Stains and Soils, Including:

- Tough solvent-soluble soils, like greases, oils, waxes, and cosmetics
- Water-soluble soils like foods & perspiration

Saves Time, Work, and Costs

- Decreases the need for spotting.
- Provides faster drying times and shorter cycles.
- Helps prevent re-cleans.
- Reduces wrinkles, lint, & finishing time.

Reduces the Potential for Machine Odors

- LIFT has a very low inherent solvent odor.
- LIFT's formulation helps control moisture in the system, reducing the risk of odors caused by bacteria build-up in the system.

Environmentally Conscious, Marketable, & Landlord Friendly

- Complies with NFPA (National Fire Prevention Association) Class IIIA requirements.
- Is inherently biodegradable, breaking down in to naturally-occurring simple organic compounds
- Not subject to reporting requirements of the United States SARA Section 313/CERCLA reporting.
- Does not contain any substances known to the state of California to cause cancer and/or reproductive toxicity (under Proposition 65, the nation's strictest standard).
- Requires no federal regulatory fees or franchise fees.

Designed for Modern Class IIIA Dry-To-Dry Machines:

- An ideal replacement if you are switching away from perc to a modified Class IIIA machine. Most perc cleaners will find it an easy transition.
- A drop-in replacement for machines designed to use Sensene™.
- Designed for Class IIIA machines, so switching from other alternative solvents, like Intense™ & SOLVONK4™, is easy.
- No need to add additional stabilizers or top up boosters.
- Uses the same Street's/ADCO stain removers and detergents as High Flash Hydrocarbon cleaners.

Note: LIFT must be used in Class IIIA machines, not in perc machines. Before installing LIFT, cleaners should follow their machine manufacturer's recommendations for using modified alcohol solvents in their equipment.

STREET'S IS A PROUD SUPPLIER OF

Proven Performance.
Cost Effective.
Consistent Premium Quality
High Flash Hydrocarbon.

**Get Superior Results with
Products That Are Proven to
Provide the Highest Quality
Cleaning with HC Boost & Lift.**

*All STREET, LAIDLAW, and ADCO stain
removal agents, that are designed for use
with high flash hydrocarbon (HFHC) solvents,
can be used with HC BOOST and LIFT.*
