

H2PRO® All-In One provides an effective combination product for wetcleaning mixed fabric loads

All-In-One Product Combining Detergent, Conditioner, Brightener & Sizing

H2PRO® All-In-One Detergent provides a flexible, cost-effective, high-quality wetcleaning solution for operations where programming needs, space, production time, or machine configuration limit the number of products that may be used.

H2PRO All-In-One Detergent is specially designed for wetcleaning mixed loads like khakis, golf shirts and casual wear, along with fine washables like wools, rayons and silks. **H2PRO All-In-One Detergent** can be used in professional wetcleaning machines, in consumer machines, or for cleaning delicate items by hand.

• *Combines Detergent, Conditioner, Brighteners & Sizing*

Combines detergent, conditioner, brighteners and sizing in a single easy to use product. •

• *Provides Effective Wetcleaning of Mixed Loads*

Effective chemistry is a crucial element in wetcleaning. **H2PRO All-In-One Detergent** offers excellent care for a broad range of different fabrics helping protect against fiber damage and loss of shape.

• *Offers Powerful but Gentle Cleaning*

H2PRO All-In-One Detergent effectively penetrates, releases and suspends greases, stains and soils.

• *Looseness & Suspends Soils to Prevent Redeposition*

H2PRO All-In-One Detergent safely and effectively loosens and suspends soil for removal during the rinse cycle. It has excellent soil suspension properties to help prevent redeposition and greying.

• *Prevents Dye Bleeding & Keeps Whites & Colors Bright*

Inhibitors help to prevent dye bleeding while effective brighteners provide whiter whites and brighter colors to help clothes look their best.

• *Reduces & Helps Prevent Felting & Shrinkage*

Built-in conditioners help keep clothes last longer by helping to prevent fiber friction and other cleaning-related damage and by reducing felting and shrinkage.

• *Helps Prevent Static & Cling*

Anti-static agent reduces garment cling and linting, making finishing faster and easier

• *Imparts a Soft, Supple Feel to Fabrics Processed in Water*

H2PRO All-In-One Detergent give fabrics a soft, full feeling and helps them hold their shape, making finishing easier and giving clothes that “like new” look and feel that customers demand.

Clean Smarter With Water™. Use H2PRO.

Instructions for Using H2PRO® All-In-One

Follow garment care label and garment fiber content and construction to select appropriate washing and drying settings and finishing methods. Before cleaning garments, remove any solvent-soluble or hard-set stains using the appropriate Street's stain removers.

- Use 2 to 4 oz. per 10 lbs (130 mL-260 mL per 10 kg) of fabric.
- Use cold or warm (85° - 95° F/ 30°C- 35°C) water.
- Set wash cycle at 4 to 6 minutes with no more than 50% washer capacity and use minimum agitation. (if using home-type washer make sure water level is above paddles).
- Rinse in cool water (70° to 85 °F/ 20°-30°C) if desired. Consistency of water temperatures is important to prevent fabric shock and distortion. If water temperature can be programmed, results will be more consistent if the rinsing is kept between at 70° to 85 ° F (20°-30°C) year round.
- Drain and extract.
- Dry according to care label instructions - but not above 120°F. (50°C).

Additional Fabric Finishes

For fabrics where an additional softness is desired such as cotton sweaters and blankets add **H2PRO Fabric Conditioner** to the final rinse cycle. For fabrics requiring additional firmer finish, such as tailored items like suits or for fabrics which are difficult to press after processing in water, such as rayon, linen and cotton, add **GELATONE® Fabric Finish** to the final rinse. Refer to the product packaging or sales sheet for specific use instructions for these products.

How to Order H2PRO All-In-One Detergent

H2PRO All-In-One Detergent is sold by authorized Street's distributors. **H2PRO All-In-One Detergent** is available in single one-gallon containers (3.785 L), cases of four, 5-gallon pails (18.93 L) or 15-gallon drums (56.78 L).

Before using any chemical product, review the Safety Data Sheet (SDS) for safe handling and proper disposal. For professional wetcleaning & laundry use only.
